

#3 Text Reading and Comprehension

Guiding Principle

Marie Clay defined reading as “a message-getting, problem-solving activity, which increases in power and flexibility the more it is practised” (2001, p. 1). In keeping with that definition, the guiding principle for this toolkit is that all classroom literacy and intervention initiatives should involve children in active, constructive learning during the process of reading and writing continuous texts.

Several aspects of learning to read continuous texts and text comprehension are highlighted in this toolkit. Because of the comprehensive nature of this topic, this toolkit differs from others in this library; it is divided into units that identify available resources for the specified topic.

You will want to select units based on the current understandings and interests of staff members and choose an appropriate sequence for unit study. The number of sessions needed for each unit will vary according to interests and needs of the learning community.

You may wish to use a jigsaw arrangement for selected units. Instead of a session planned for the whole group, individuals or small groups may work together on selected activities with various resources and then bring information back to share with the larger group.

For all sessions, a crucial component will be opportunities for participants to apply what they learn in their own settings and to share with others in the professional learning community.

Professional Learning Toolkits

are an extension of *Promising Literacy for Every Child: Reading Recovery and a Comprehensive Literacy System* (RRCNA, 2014), referred throughout this document as the Guide. Be sure to read “An Introduction to RRCNA Professional Learning Toolkits” prior to using this specific toolkit.

Potential Leadership

Literacy coaches, reading and/or language arts specialists, Reading Recovery-trained teachers, and Reading Recovery teacher leaders can be valuable resources in planning the sessions if the time in their primary role is not jeopardized.

Intended Participants

This learning toolkit is appropriate for classroom teachers, coaches, interventionists, literacy specialists, and administrators.

IMPORTANT: PLEASE NOTE

An Introductory Session and a Concluding Session provide a beginning and ending point to this toolkit and should be used regardless of the units chosen for study during this learning experience.

OVERVIEW OF THIS TOOLKIT

► Introductory Session

This should be the first session. Participants will gain an overview of the professional development activities available in this toolkit.

► Topic-Specific Units

Unit 1 — Determining an Instructional Reading Level

To get the maximum benefit from this toolkit, K–2 participants should be familiar with administering, scoring, analyzing, and using Running Records of Text Reading for finding readable texts and for instruction. Additional resources are suggested for professional development on the Observation Survey (Clay, 2013) and on running records.

You may want to use *Toolkit #1: Assessing and Monitoring Children’s Literacy Behaviors* prior to beginning the units in this toolkit. Your session schedule will vary according to the number of sessions required to build proficiency in using running records.

For teachers beyond Grade 2, participants will need a clear understanding of ways to determine a child’s instructional reading level. Your school or district may have specified assessments for this purpose. There are several commercial products to accomplish this goal.

Unit 2 — Selecting the Right Texts

Emphasis is on the importance of selecting texts that are appropriate for individuals and for groups of students.

Unit 3 — Introducing Texts

Participants will explore factors involved in introducing new texts to students in order to promote a successful first reading of the book.

Unit 4 — Building Understanding Before, During, and After Reading Continuous Texts

This unit focuses on strategic activities readers use to understand the messages in texts and takes a broad look at text comprehension. Your session schedule will vary according to the number of resources selected by participants.

Unit 5 — Phrasing in Fluent Reading

Focus is on the importance of phrasing and fluent reading in relation to text comprehension.

Unit 6 — General Instructional Support

Participants can select from a variety of resources to explore various instructional contexts to support meaningful text reading such as guided reading.

► Concluding Session: Assessing Progress Toward a Self-Extending System

The final session(s) will focus on assessing student progress and on evaluating the impact of the toolkit on the professional learning community.

REFERENCES

- Clay, M. M. (2001). *Change over time in children’s literacy development*. Portsmouth, NH: Heinemann.
- Clay, M. M. (2013). *An observation survey of early literacy achievement* (3rd ed.). Portsmouth, NH: Heinemann.

Introductory Session

This session should precede all other units regardless of the order in which other units are presented. It provides a starting place for participants to begin their study of all other units.

1. Go to page 19 in the Guide and compare Belief #1 to your essential basic beliefs about text reading. Use the worksheet on page 20 to lead your discussion.
2. Use the “Instruction” section in the worksheets on pages 35 and 36 and on page 46 in the Guide. Discuss all items that address reading.
3. Share the potential units of study in this toolkit:
 - Unit 1 — Assessment; determining an instructional reading level, grouping for instruction (emphasis on running records of text reading)
 - Unit 2 — Selecting the right texts
 - Unit 3 — Introducing texts to students
 - Unit 4 — Building students’ understandings before, during, and after reading
 - Unit 5 — Phrasing in fluent reading
 - Unit 6 — General instructional activities
4. Survey the participants about their specific interests and needs within this toolkit. Ask them to share their learning goals for text reading and comprehension and what help they hope to receive from the learning community.

APPLICATION

Ask each participant to choose a child with whom they currently work. They will engage this child in suggested follow-up activities after all sessions. This child will subsequently be referred to as a “Target Student.” If time permits, participants can share reasons for choosing the particular child.

EXTENSION

Ask participants to read the following article prior to the next session: Pinnell, G. S., & Fountas, I. C. (2013). Guided reading: The romance and the reality. *The Reading Teacher*, 66(4), 268–284.

Unit 1 – Determining an Instructional Reading Level

(running records, grouping for instruction, etc.)

1. Begin this unit with a brief overview of early assessment including running records by showing the USDE video, “Assessing Through Close Observation,” available at no cost on the RRCNA website. The 8-minute video focuses on assessing rapid change in literacy learning of young children through close and systematic observation. (See Free Videos and Reference Guides in resources for use with this unit.)
2. If primary-grade participants are not familiar with administering *An Observation Survey of Early Literacy Achievement* (Clay, 2013) and administering and using the results of running records, additional sessions may be needed for this topic. A professional learning module on the Observation Survey and a series of three modules for administering, analyzing, and using running records are available for purchase from RRCNA. This may be an appropriate investment for primary teachers for whom running records are new. Several sessions will be needed for this learning experience. (See RRCNA Interactive Leader-Directed Professional Learning Modules in resources for use with this unit.)

Teachers of students beyond the early years will also need to know how to assess students’ instructional reading levels and to examine their processing during oral reading of continuous text. There are a number of commercial products available, and your district may have a local option available to accomplish this goal.

3. Discuss ways in which participants can determine an instructional reading level for each child in order to meet individual needs and to group children for instruction.

APPLICATION POSSIBILITIES

- Ask each participant to assess his or her Target Student in order to verify the instructional reading level at this point in time. Encourage them to share their findings at the next session.
- Ask primary (especially K–2) teachers to administer the Observation Survey (including running records) to their Target Student.
- Encourage participants to observe their Target Student during literacy activities in the classroom and take observation notes for discussion with the group.

RRCNA RESOURCES FOR USE WITH UNIT 1

Free Videos and Reference Guides (see Introduction document for Technical Notes)

These modules are part of the Effective Practices Early Literacy Video Library developed in partnership with the USDE. A 2-page PDF reference guide accompanies the video and includes definitions and other important information, key points for teachers, and resources. Reading the reference guide prior to viewing the video will enhance your learning experience.

Assessing Through Close Observation (link to focus information)

8 minutes

Assessing rapid change in literacy learning of young children through close and systematic observation
[K-2 examples but principle applies to all grades]

On-Demand Webcast (\$45 RRCNA member; \$75 non-member; click links for details)

Webcasts are sessions from past National Reading Recovery & Early Literacy Conferences sponsored by RRCNA.

The times listed should be extended to allow for participant discussion and involvement.

[Accelerated Literacy Learning for K-2](#) (K-2)

70 minutes

Maryann McBride (2009)

This session will assist classroom teachers in making the decision to move children up the levels of a leveled book set for their guided reading instruction. Topics discussed will be how to set goals for progress of students in guided reading groups, what determines the level of a text and what are the instructional focus for different levels, and how to use assessments to help make placement decisions.

Audio Files (MP3 \$10, CD \$12, DVD \$17)

Audio files are sessions from past National Reading Recovery & Early Literacy Conferences sponsored by RRCNA.

The times listed should be extended to allow for participant discussion and involvement.

[Break It Down: Using Assessment Results for Effective Teaching](#) (K-2)

90 minutes

Rosemary Baker, Robert Green, and Betsy Tautin (2013)

Learn to analyze assessment results to plan powerful classroom instruction in early reading and writing. Videos of high-, middle-, and low-progress children show use of data to provide purposeful instruction. MP3, CD, DVD

[I've Taken a Running Record, Now What?](#) (K-2)

90 minutes

Bama Coward and Jane Dougherty (2013)

Our teachers didn't understand how to plan instruction in response to running records. Explore the process we used to turn analysis into effective teaching and improve student performance. MP3, CD

[Struggling Readers: Making Teaching Moves Based on Observation](#) (K-2)

90 minutes

LeeAnn Lewellen and Amy Emmons (2014)

Learn to look at analyzed running records to determine the next instructional steps for small-group instruction. Discover ways to provide instruction that reinforces learning for struggling readers. MP3, CD

[Triangulating Data to Understand Our Readers](#) (K-6)

90 minutes

Clare Landrigan and Tammy Mulligan (2014)

How do we shift our perspective of assessment from evaluation understanding? Make data analysis manageable and purposeful by learning strategies for triangulating multiple assessments to determine instructional goals. MP3, CD

[Using Assessment to Engage and Teach Readers](#) (K-6)

90 minutes

Tammy Mulligan and Clare Landrigan (2015)

Assessment and instruction are inseparable and students play an important role in this process. Learn how students analyze data to set goals, reflect on their progress, and engage in learning. MP3, CD

Interactive Leader-Directed Professional Learning Modules (20% discount for RRCNA members)

All modules are available for purchase from RRCNA and provide detailed information about procedures and use of assessment and monitoring tools for primary grades. Each of these learning modules includes suggestions for teachers to apply their learning to practical experiences.

Observation Survey

DVD – 2 sessions with practice between \$160

This module focuses on the six tasks of the Observation Survey – a tool for planned systematic observation to capture evidence of early progress in literacy learning and rated highly as a screening tool for response to intervention (RTI). The module includes video examples of Observation Survey tasks and videos of administrations of the survey. Record sheets provide opportunities to observe and discuss administration, scoring, and interpretation. (Participants will need the book *An Observation Survey of Early Literacy Achievement* by Marie Clay, preferably the 2013 edition, available from Heinemann.)

Running Record Part One:

3 CDs – 1 or 2 sessions with practice between \$90

Learning the Conventions and Basic Scoring Procedures

If running records are new to participants, begin with Running Record Part 1. This package provides training for classroom, pre-service, and Reading Recovery and other intervention teachers. It introduces the conventions and basic scoring procedures for taking a running record. (Participants will need the book *An Observation Survey of Early Literacy Achievement* or *Running Records for Classroom Teachers*, both by Marie Clay and available from Heinemann. Page numbers may vary if using the 2013 edition.)

Running Record Part Two:

2 CDs – 1 or 2 sessions with practice between \$100

Analysis of Running Records of Text Reading

Part 2 is for participants who already know how to take running records but need support with analyzing the records. Building on Part One, this package helps teachers learn to interpret running records in order to analyze errors and self-corrections. Through video and PowerPoint, teachers observe a child's reading behaviors and two educators interpreting and analyzing those behaviors. (Participants will need the book *An Observation Survey of Early Literacy Achievement* or *Running Records for Classroom Teachers*, both by Marie Clay and available from Heinemann. Page numbers may vary if using the 2013 edition.)

Running Record Part Three:

DVD – 2 sessions with practice between \$140

Using Running Records to Make Teaching Decisions

Part 3 is for participants who know how to take and analyze running records, but want to know more about using them to plan teaching decisions. The package explores ways to use running record analysis to guide teaching decisions when working with individuals or with groups of children. Flash video includes in-depth teacher and leader discussions as well as demonstrations of individuals and groups of students reading. (Participants will need the book *An Observation Survey of Early Literacy Achievement* or *Running Records for Classroom Teachers*, both by Marie Clay and available from Heinemann. Page numbers may vary if using the 2013 edition.)

ADDITIONAL RESOURCE

Allington, R. L., McCuiston, K., & Billen, M. (2015). What research says about text complexity and learning to read. *The Reading Teacher*, 68(7), 491–501.

EXTENSION

Ask participants to read the following article that includes the selection of texts prior to the next session: Fountas, I. C., & Pinnell, G. S. (2013). Guided reading: The romance and the reality. *The Reading Teacher*, 66(4), 268–284.

Unit 2 – Selecting the Right Texts

1. Introduce the unit with a brief discussion of what participants learned about their Target Student’s instructional reading level.
2. Show the USDE video, “Selecting Texts That Are Just Right,” available at no charge on the RRCNA website. This 8-minute video emphasizes the importance of selecting books that are just right for young readers, offers considerations for book selection, and stresses the critical role of the book introduction in making books accessible and successful for readers. Brainstorm factors that could help or hinder a child’s reading of a particular text. (See Free Videos and Reference Guides in resources for use with this unit.)
3. Discuss responses to the Fountas and Pinnell article regarding choosing texts for readers.
4. Share ideas about what makes a particular book ‘right’ for a particular child.
5. Give attention to the concept of gradients of text difficulty, calling for attention to the change over time as students progress through text levels.
6. You may want to choose from the resources available on the RRCNA website listed below.

APPLICATION

Ask each participant to choose a new book for the Target Student and, at the next session, to share with the group what entered into that decision.

RRCNA RESOURCES FOR USE WITH UNIT 2

Free Videos and Reference Guides (see Introduction document for Technical Notes)

These modules are part of the Effective Practices Early Literacy Video Library developed in partnership with the USDE. A 2-page PDF reference guide accompanies the video and includes definitions and other important information, key points for teachers, and resources. Reading the reference guide prior to viewing the video will enhance your learning experience.

Selecting Texts That Are Just Right (link to focus information)

8 minutes

Offers considerations for book selection, and stresses the critical role of the book introduction in making books accessible and successful for readers

(K-2 examples but principle applies to all grades)

[Direct link to video](#) option (download takes several minutes)

[Direct link to PDF](#) option

On-Demand Webcast (\$45 RRCNA member; \$75 non-member; click links for details)

Webcasts are sessions from past National Reading Recovery & Early Literacy Conferences sponsored by RRCNA.

The times listed should be extended to allow for participant discussion and involvement.

Understanding Text Complexity (K-2)

75 minutes

Janet Bufalino (2013)

Text complexity, in this presentation, is defined as the different elements that make one text different from another.

This in-depth analysis is focused on how teachers can analyze the complexities of meaning, structure, and visual information in a text to help choose the ‘right book’ for one student or a group of students. Includes materials to enable the participants to apply the knowledge gained to texts.

Free Audio Files

Audio files are sessions from past National Reading Recovery & Early Literacy Conferences sponsored by RRCNA.

The times listed should be extended to allow for participant discussion and involvement.

Are They Really Reading? Supporting Independent Reading in the Classroom (K-2)

80 minutes

Tony Stead (2011)

Examine ways to assist students with selecting materials for independent reading and research. Includes organizing classroom libraries, establishing borrowing routines, helping children select appropriate materials, providing whole class and individual support, the importance of nonfiction, monitoring student's selections, and responding to literature and management strategies.

[Click to open/download mp3 audio file](#)

[Click to open/download presentation PDF](#)

Moving Up in Guided Reading (K-3)

90 minutes

Jan Richardson (2006)

Acceleration in guided reading depends upon teachers moving students through a gradient level of text difficulty. When are students ready to move? This presentation provides suggestions on what students should be able to do before they move to the next text level.

[Click to open/download mp3 audio file](#)

Audio Files for Purchase (MP3 \$10, CD \$12, DVD \$17)

Audio files are sessions from past National Reading Recovery & Early Literacy Conferences sponsored by RRCNA.

The times listed should be extended to allow for participant discussion and involvement.

Texts as Teachers (RR)

90 minutes

Pat Scharer (2013 Keynote Address)

In her book, *How Texts Teach What Readers Learn*, Margaret Meeks describes how every text influences us as readers and writers. This session focuses on how texts can influence the decisions we make every day with our students and our assumptions about teaching and learning. MP3, CD, DVD

ADDITIONAL RESOURCES

Allington, R. (2015). What research says about text complexity and learning to read. *The Reading Teacher*, 68, 491–500.

Strachan, S. (2015). Expanding the range of text types used in the primary grades. *The Reading Teacher*, 68, 303–311.

EXTENSION

Ask participants to read the following article by Marie Clay on introducing texts to students. Plan to discuss the article during the next session: Clay, M. M. (1991). Introducing a new storybook to young readers. *The Reading Teacher*, 45(4), 264–273.

Unit 3 – Introducing Texts

1. Begin this unit with a brief discussion of books selected by participants for their Target Students with rationales and outcomes.
2. Engage participants in a discussion about the article by Marie Clay they read prior to the session about introducing texts to children.
3. Engage participants in a discussion of what they might consider in planning to introduce students to a new text. What decisions might make the text easier for the child to read successfully?
4. You may want to choose from the resources available on the RRCNA website listed below.

APPLICATION

Ask participants to plan a book introduction for a book chosen for their Target Student and introduce the book and to take note of what they did in the introduction to support the first reading of the text. If possible, video or audio recordings of the introductions will support rich discussion of this topic. At the next session, invite participants to discuss their book introductions to Target Students. What factors were considered? What worked? What did you learn for the future? What questions do you have? How does the book introduction support comprehension and/or strategic activity?

RRCNA RESOURCES FOR USE WITH UNIT 3

On-Demand Webcast (\$45 RRCNA member; \$75 non-member; click links for details)

Webcasts are sessions from past National Reading Recovery & Early Literacy Conferences sponsored by RRCNA.

The times listed should be extended to allow for participant discussion and involvement.

Selecting and Introducing Texts (RR)

80 minutes

Mary Lose (2013)

Selection of appropriate texts is critical. Teachers must preview and analyze texts to prepare a particular child for correct responding and ultimately to advance the child's literacy processing system. Focus on the work of Kintsch (domain knowledge) and Clay (Reading Recovery) as we consider how best to support a child in orienting himself to reading texts. Explore the challenges a child might encounter in the first reading of a new story as he uses several sources of information, constructs meaning, and problem solves while maintaining fluency. [for Reading Recovery teachers but may be appropriate for others]

Audio Files for Purchase (MP3 \$10, CD \$12, DVD \$17)

Audio files are sessions from past National Reading Recovery & Early Literacy Conferences sponsored by RRCNA.

The times listed should be extended to allow for participant discussion and involvement.

Gradual Release of Support in Book Introductions (K-6)

90 minutes

Beth Swenson (2014)

Teach children how to orient themselves to texts by gradually releasing support in book introductions. Examine significant shifts in data, including increased self-correction when students are led to independence. MP3, CD, DVD

ADDITIONAL RESOURCES

Briggs, C., & Forbes, S. (2009). Orientation to a new book: More than a picture walk. *The Reading Teacher*, 62(8), 706–709.

Clay, M. M. (1991). Introducing a new storybook to young readers. *The Reading Teacher*, 45(4), 264–273.

Labadie, M., Wetzel, M., & Rogers, R. (2012). Opening spaces for critical literacy: Introducing books to young readers. *The Reading Teacher*, 66, 117–127.

Unit 4 – Building Understanding Before, During, and After Reading

APPLICATION

At each session, participants will share a before, during, and/or after reading experience that they planned and implemented with a student or a group. Relate each lesson to any of the resources listed below. For example, participants may share successful examples of students responding to a text through discussion, art, writing, drama, etc. Participants may also share lessons that could benefit from modifications to enhance group learning.

There are many more resources available than time may permit for involvement with this unit.

Engage the learning community in selecting topics and resources to use for the sessions about strategic activities during text reading and text comprehension.

Consider a jigsaw arrangement

to allow individuals or small groups to select different resources and bring information back to share with the larger group.

Free Videos and Reference Guides (see Introduction document for Technical Notes)

These modules are part of the Effective Practices Early Literacy Video Library developed in partnership with the USDE. A 2-page PDF reference guide accompanies the video and includes definitions and other important information, key points for teachers, and resources. Reading the reference guide prior to viewing the video will enhance your learning experience.

Making It Easy to Learn (link to focus information)

7.5 minutes

Building on a child's strengths to set up situations in which the child is in control and will experience success while enjoying challenges within reach (K-2 examples but principle applies to all grades)

[Direct link to video](#) option (download takes several minutes)

[Direct link to PDF](#) option

Teaching for Transfer: Strategic Activities (link to focus information)

8 minutes

Exploring strategic activities initiated by children and actions teachers can take to encourage those behaviors (K-2 examples but principle applies to all grades)

[Direct link to video](#) option (download takes several minutes)

[Direct link to PDF](#) option

Journal Articles (click titles to open/download)

On-Demand Webcasts (\$45 RRCNA member; \$75 non-member; click links for details)

Webcasts are sessions from past National Reading Recovery & Early Literacy Conferences sponsored by RRCNA.

The times listed should be extended to allow for participant discussion and involvement.

- Activating Strategic Action in Guided Reading (K-2)** 84 minutes
Leslie McBane (2104)
What do your students do at difficulty during guided reading instruction? Using student work samples and videos, learn to teach children to take strategic action while maintaining meaning. Address these topics and questions: Investigate text demands from kindergarten to early second grade. (What should I be teaching when? Why?); Identify signs of processing problems at different points in time. (What warning signs should I be alert to?); Intervene to prevent processing problems. (How do I intervene so that children will be strategic?); Empower children to be problem solvers. (How can I get students to take action instead of waiting for me to tell them what to do?)
- Teaching for Tomorrow: Creating Strategic Learners Through Challenging Work (K-6)** 76 minutes
Linda Dorn (2013)
To deal with the challenges of tomorrow, schools must create opportunities for children to acquire deep knowledge of literacy and the world, to apply flexible strategies to solve problems, to weigh alternative solutions and make wise decisions, and to work collaboratively with others on innovative projects. Discover how children develop decision-making efficiency during meaningful and authentic learning experiences. Includes downloadable slides as well as transcripts of videos of teaching and learning interactions to illustrate these principles.
- Making the Invisible Visible: The Role of Meaning in Effective Literacy Processing (RR)** 78 minutes
Nancy Anderson (2010)
Meaning is the most important source of information for literacy learners; however, it may be hard to value 'invisible' information over 'visible' letters on the page. Understand the critical role of meaning as the guiding force of strategic activity and explore how reading and writing weave together to support effective comprehension instruction that engages learners. Includes downloadable PowerPoint presentation and a bibliography.
- Structure is an Important Source of Information That Can Be Hard for Both Children and Teachers to Work With (RR)** 74 minutes
Sue Duncan (2014)
Structure or syntax is an important source of information for readers as they read texts. It assists children to solve words in reading, and it gives them a feed-forward and feedback mechanism as they read. A child who does not have control of the oral language patterns of English or has little experience with book language is probably less able to predict and use the language structures in books. [for Reading Recovery teachers but may be appropriate for others]
- Deepening the Reading Comprehension Experience (K-6)** 90 minutes
Dorsey Hammond (2013)
Addresses five critical factors that impact reading comprehension: prior knowledge/preconceptions, interest, intention, focus, and reflection. He argues that rather than attempting to simplify or segment comprehension into a series of sub-behaviors, we need to embrace the complexity and dynamic nature of the comprehension experience. Includes examples of student and teacher discussions that lead to deep comprehension.
- Inferring: The Heartbeat of Comprehension (K-6)** 78 minutes
Pat Johnson and Katie Keier (2011)
Learn how inferring fits into the complex reading processing system and become better acquainted with the concept of inferring as you reflect on yourself as a reader. Presenters will share how they teach students to naturally infer as they read through modeled lessons, shared demonstrations, and suggestions for guided practice with a variety of fiction picture books, nonfiction texts, and poetry. Includes a list of picture books that fit with the topic and downloadable handouts.

Free Audio Files

Audio files are sessions from past National Reading Recovery & Early Literacy Conferences sponsored by RRCNA.

The times listed should be extended to allow for participant discussion and involvement.

Teaching FOR Strategies in a Reading/Writing Workshop (K-6) 91 minutes

Mona Yoast-Bertino (2006)

When we focus classroom instruction on teaching FOR strategy use, powerful reading/writing connections can be made. Identify strategies that support and connect the reading and writing process, and model ways to teach FOR these strategies.

[Click to open/download mp3 audio file](#)

Reading Begins in Kindergarten (K-2) 70 minutes

Jeff Williams and Valerie Roncaglione (2009)

Children arrive in kindergarten with diverse amounts of literacy knowledge. Explore how teachers deal with such diversity through small-group guided instruction and the changes that can happen as a result.

[Click to open/download mp3 audio file](#) [Click to open/download presentation PDF](#)

Creating Contexts for Meaningful Independent Reading and Writing (K-2) 80 minutes

BethAnn Browning (2007)

Learn how to develop and implement meaningful, independent literacy work during reading workshop. Videos show children in Grades K-2 engaged in exploration and practice. Implementation plan provided.

[Click to open/download mp3 audio file](#) [Click to open/download presentation PDF](#)

Sailing the Craft of Children's Poetry (K-6) 69 minutes

J. Patrick Lewis (2006)

A demonstration of ways to teach for comprehension strategies using the reading, writing, and performance of poetry.

[Click to open/download mp3 audio file](#) [Click to open/download presentation PDF](#)

Opportunities for Responding: Guided Reading and Written Response (K-2) 78 minutes

Jeffery Williams (2008)

One often-neglected opportunity of guided reading is teaching about and scaffolding for writing in response to reading. Explore methods of teaching, engaging and supporting young readers in quality written response as an integral part of small-group, guided reading instruction.

[Click to open/download mp3 audio file](#) [Click to open/download presentation PDF](#)

Moving Up in Guided Reading (K-3) 90 minutes

Jan Richardson (2005)

Acceleration in guided reading depends upon teachers moving students through a gradient level of text difficulty. When are students ready to move? This presentation provides suggestions on what students should be able to do before they move to the next text level.

[Click to open/download mp3 audio file](#)

Audio Files for Purchase (MP3 \$10, CD \$12, DVD \$17)

Audio files are sessions from past National Reading Recovery & Early Literacy Conferences sponsored by RRCNA.

The times listed should be extended to allow for participant discussion and involvement.

The Construction Zone: Building, Expanding, and Transferring Knowledge Through Teacher Scaffolding (K-6) 90 minutes

Linda Dorn (2013)

With an emphasis on reading complex texts, it is more important than ever that teachers understand how to scaffold students' learning. Within an integrated workshop, teachers provide students with opportunities to build, expand, and transfer knowledge across multiple settings to become independent readers. In the process, students acquire the strategies and background knowledge for reading complex materials without teacher assistance. MP3, CD

- Teaching for Transfer: What's Missing?** (K-6) 90 minutes
Nicole Zuerblis (2014)
Provides the missing piece of strategy instruction to promote student independence in reading. Explicit strategies for using the language of transfer to ensure independent readers. MP3, CD
- Reading for Meaning: The Ultimate Goal** (K-2) 90 minutes
Evelyn Arthur (2013)
Teach for comprehending strategies by showing students how to ask questions as they read. Learn how to teach students to predict, infer, synthesize, and make connections using student examples. MP3, CD
- Deepening Comprehension Through Dialogue** (K-6) 90 minutes
Cissy Clock and Christy Moore (2013)
Deepen students' comprehension, create a sense of community, and develop personal character through conversations around authentic literature. Discover the power of dialogue and its benefits in the classroom. MP3, CD
- Comprehension During Guided Reading** (K-6) 90 minutes
Jan Richardson (2013)
Small-group instruction offers tremendous opportunities to accelerate students while they read and interact with an instructional-level text. Learn techniques for improving engagement and supporting meaningful conversations before, during, and after reading. MP3, CD
- Dive Deeper into Comprehension** (K-2) 90 minutes
Connie Hebert (2014)
Become more proactive about teaching struggling readers how to dive deeply into comprehending what they read, every time they read. MP3, CD, DVD
- The Love of Learning Through Poetry** (K-6) 90 minutes
Tiffany Messer and Christina Schorr (2014)
Watch effective ways to engage students in building fluency, comprehension, and vocabulary acquisition across content areas. Plan, organize, and execute a successful end-of-year poetry read. MP3, CD
- Powerful Prompting During Guided Reading** (K-6) 90 minutes
Jan Richardson (2015)
The most-powerful (and often challenging) part of guided reading is the teacher-student interaction during and after reading. Learn specific and practical scaffolding techniques that deepen comprehension while improving decoding and vocabulary. Videos of actual guided reading lessons included. MP3, CD
- Supporting Students Who Struggle with Comprehension of Text** (K-6) 90 minutes
Linda Dorn (2015)
Look at procedures and processes for supporting students who struggle with comprehension of text. The session focuses on evidence-based practices for increasing the reading comprehension of low-performing readers through book discussions, close reading strategies, and writing about reading. MP3, CD

Unit 5 – Phrasing in Fluent Reading

1. Begin the first session by showing the video, “Phrasing in Fluent Reading,” available at no cost on the RRCNA website. This 8-minute video explores aspects of fluent reading and supportive phrasing in fluent reading for young readers. (See Free Videos and Reference Guides in resources for use with this unit.)
2. Choose from other RRCNA resources listed below or your own resources to explore this topic.

APPLICATION

Ask participants to record their Target Student to explore use of phrasing in fluent reading. Encourage them to share their observations at the next session. If permissible, they may bring the audio recordings for discussion.

RRCNA RESOURCES FOR USE WITH UNIT 5

Free Videos and Reference Guides (see Introduction document for Technical Notes)

These modules are part of the Effective Practices Early Literacy Video Library developed in partnership with the USDE. A 2-page PDF reference guide accompanies the video and includes definitions and other important information, key points for teachers, and resources. Reading the reference guide prior to viewing the video will enhance your learning experience.

Phrasing in Fluent Reading (link to focus information)

8 minutes

Explores aspects of fluent reading and supportive phrasing in fluent reading for young readers (K-2 examples but principle applies to all grades)

On-Demand Webcast (\$45 RRCNA member; \$75 non-member; click links for details)

Webcasts are sessions from past National Reading Recovery & Early Literacy Conferences sponsored by RRCNA.

The times listed should be extended to allow for participant discussion and involvement.

Fluent Reading: Development of Orchestration (RR)

90 minutes

Salli Forbes and Connie Briggs (2015)

Phrasing in fluent reading contributes to the reader's processing system. Examine components of phrased and fluent reading; how phrasing and fluency affect comprehending, phrased and fluent reading development over time; using children's reading to illustrate changes in development, and more. Participants are asked to evaluate phrased and fluent reading, and implications for teaching are discussed.

Increasing Fluency in the Classroom (K-6) 71 minutes

Joe Cline (2008)

To increase fluency levels, research states you must increase a student's sight word vocabulary, and sight word vocabularies are increased through reading. Learn five research-proven strategies to increase student fluency.

Teaching for Fluency and Comprehending During Transitional Guided Reading Lessons (K-2) 90 minutes

LeeAnn Lewellen and Amy Emmons (2013)

Building on students' current strategies and knowledge, teachers will learn how to deepen comprehension and increase fluency in a guided reading lesson focusing on DRA levels 10–18. MP3, CD, DVD

Fluency is Not Machine Gun Reading (K-6) 90 minutes

Bobbie Sievering (2013)

Common Core State Standards state that students should read with accuracy, fluency, and expression to support comprehension. Learn various techniques and create lessons to achieve these goals. MP3, CD

Fluency Development: Change Over Time (RR) 90 minutes

Connie Briggs and Salli Forbes (2014)

How do the components of phrased and fluent reading impact comprehending and its development over time. Listen to audio recordings of children's reading as they become more proficient with texts of increased complexity. MP3, CD

Listening to Yourself Reading (K-2) 90 minutes

Joe Stouffer (2013)

Consider how auditory input and the sound of the reader's voice as he reads aloud is a multifaceted asset to the development of a robust literacy processing system. MP3, CD

Unit 6 – General Instructional Support

The RRCNA resources for this unit include a variety of ways in which teachers can support students' text comprehension. Again, the jigsaw approach may be useful for this unit. Individuals or small groups could choose resources to explore and share with the learning community. You will want to supplement with your own resources.

The times listed should be extended to allow for participant discussion and involvement.

[Negotiating the Literacy Lives of Boys Through Building a Literacy Community](#) (K-6) 45 minutes

David Booth (2008)

An expert in this field, David Booth helps educators understand issues involved in boys' literacy learning and then provides proven methods to engage them as readers and writers. Includes downloadable handouts. This presentation focuses on helping boys become print powerful, assisting boys in becoming writers, and structuring literacy events for students.

[Learning to Read is Not a Race:](#) 90 minutes

[Exploring Teaching Opportunities within Chapter Books for Transitional Readers](#) (1-6)

Jeffery Williams (2008)

Explore how to help readers gain insight into the complexity of how chapter books work. Examine the kinds of teaching and thinking that are required to support readers as they transition into longer texts. Though emphasis is placed on transitional readers, most concepts apply to Grades 1–6. Includes downloadable handouts. Learn to develop an understanding of the needs of transitional readers, gain knowledge about the complexities of chapter books, and plan more explicit instruction to address the strategies and understandings that transitional readers need.

[Meeting Individual Needs in Small Groups \(And the Five Shall Become One\)](#) (K-2) 70 minutes

Amy Emmons and LeeAnn Lewellen (2012)

Planning for small groups of five or more students can be challenging, especially for beginning readers in Grades K-2. Each student has different literacy needs and different literacy strengths. Look at administering a running record, a key tool in determining the needs of individual students. Then review how to carefully analyze a running record to assess the needs of the child. Finally, we will focus on how to take the information from each of the running records of individual students and devise a plan for the instruction of the whole group to best meet the needs and build upon the strengths of the children.

Audio Files for Purchase (MP3 \$10, CD \$12, DVD \$17)

Audio files are sessions from past National Reading Recovery & Early Literacy Conferences sponsored by RRCNA.

The times listed should be extended to allow for participant discussion and involvement.

- Preventing Summer Reading Loss (K-6)** 90 minutes
Reann French, Chris Baska, and Janet Falk (2014)
Summer reading loss causes backsliding in reading development and has a cumulative effect over the years. Find out about cost-effective options for closing the achievement gap. MP3, CD, DVD
- Big Ideas to Support ELLs in Reading (K-6)** 90 minutes
Vicki Burlingame and Jean Lampe (2013)
Innovative ideas to provide support to ELLs within guided reading. Learn the importance of big ideas; thinking deep, not wide; and slowing down to speed up to assist in comprehension. MP3, CD, DVD

ADDITIONAL RESOURCES

Concluding Session

The final toolkit session(s) should focus on examining students’ progress in text reading and on evaluating the learning involved in this toolkit. Possibilities include the following:

1. Ask participants to assess their Target Student to determine progress in text reading level and reading behaviors.
2. Discuss ways to continue monitoring progress of student progress toward a self-extending system.
3. Return to Belief #1 on page 19 in the Guide and the six bullets on page 20. Discuss any changes in your thinking at this point in time. What new insights and priorities do you now have?
4. Return to the “Instruction” section on pages 35–36 and page 46 in the Guide. Discuss any new thinking or ongoing challenges.
5. Evaluate the impact of the toolkit on participants’ learning and application of ideas. What have we learned? What’s next?
