**Reading Recovery**

is a highly effective short-term intervention of one-to-one tutoring for lowest-achieving first graders. Reading Recovery’s student results are rooted in a three-tiered professional development model for teachers, teacher leaders, and university trainers. Since Reading Recovery began in North America in 1984, it has reached over 2.5 million first graders and trained tens of thousands of teachers.

The **Reading Recovery Council of North America, Inc. (RRCNA)**
is a not-for-profit association of Reading Recovery professionals, advocates, and partners. Established in 1996, the Council is the only professional organization devoted to serving the priorities of the Reading Recovery community. Governed by a volunteer board of directors, membership and participation are open to anyone interested in Reading Recovery and early literacy. The more than 3,000 members of RRCNA work to develop professional resources, advocate for Reading Recovery, participate in professional development opportunities, and support research.

*Descubriendo la Lectura, the reconstruction of Reading Recovery in Spanish, is used with children whose classroom literacy instruction is in Spanish.

**As soon as students can read within the average range of their class and demonstrate that they can continue to achieve, their lessons are discontinued, and new students begin individual lessons.

e-Learning Center
RRCNA's e-Learning Center continued to expand this year, and currently features 50 video sessions. Members can quickly search dozens of topics, select a session, and start learning at their own pace. If members wish to earn professional development credit for viewing a video, they can complete a brief quiz, and print a certificate of completion. Each member’s learning profile is updated automatically, and is always available to view or print.

Staying Connected
RRCNA continued to feature monthly Twitter chats along with well as posts from literacy professionals on the Reading Recovery Connections blog.

The Journal of Reading Recovery
For 18 years, The Journal of Reading Recovery (JRR) has been the only journal devoted exclusively to Reading Recovery. Articles from the peer-reviewed practitioner’s journal offer members current information related to Reading Recovery teaching, theory, implementation, research, and Council updates.
More than 2,780 educators gathered February 9-12, 2019 in Columbus, Ohio, to learn how to support literacy achievement for all students. Focus areas included classroom literacy, literacy coaching, leadership, children’s literature, and Reading Recovery. Keynote presenters were C.C. Bates, Lucy Calkins, and children’s author Gail Carson Levine.

Two outstanding individuals were recognized during the 2019 National Conference: Dr. Karen Scott (right), Executive Director of Elementary Learning in the Ozark, Missouri School District and Mary Grassi, Title I Director in the Cambridge, Massachusetts School District. The prestigious Excellence in Literacy Leadership Award is presented to individuals, not trained in Reading Recovery, who have displayed a strong commitment to expand and maintain its high standards, and who made significant contributions to its implementation beyond the local level and their role.
Teacher Leader Institute Examines Theoretical Understandings. Held Tuesday June 11 – Friday June 14, 2019 in Greenville, South Carolina, the theme of this year’s Institute was Transforming our Practice: Windows of Opportunity for Reflection and Learning. The TLI focused on Behind-the-Glass with the goal of strengthening our practice as we collaborate about facilitating thought and talk at the glass. Sessions focused on change over time in leading and learning during Behind-the-Glass lessons and included constructing chains of reasoning, facilitating the discussion circle, and concluded with the new Reading Recovery technology standards. Additional time in University Training Center groups resulted in action plans for implementation of this new learning.

TOP — New teacher leaders and trainers were welcomed to the Reading Recovery community during the Institute.

LEFT— Teacher leaders participated in group activities that included in-depth discussions and examination of BTG to support their learning as well as the learning of teachers and students.

BOTTOM LEFT— Teacher leaders and trainers collaborated on technology-focused presentations.
